Choose your day for taking *Once Weekly Alendronate Sodium Tablets USP, 35 mg** sodium tablets in the enclosed Medication Guide. Please read it carefully.

There is important additional information about how to take *once weekly* alendronate once a week, as originally scheduled on your chosen day.

If you miss a dose, take only one alendronate sodium tablet on the morning after you remember. *Do not take two tablets on the same day.* Return to taking one tablet for as long as your doctor prescribes it.

Remember to take one alendronate sodium tablet once each week on that same day eat breakfast first.

Begin your morning activities... but don't lie down, eat, drink, or take other medication for at least 30 minutes.

After getting up for the day on your chosen day of the week, swallow (do not chew or suck) one alendronate sodium tablet with a full glass (6 to 8 oz.) of plain water, on an empty stomach. Do not take alendronate sodium tablets at bedtime or before arising for the day.

Choose the day of the week that best fits your schedule. Every week, take one alendronate sodium tablet on your chosen day.
